

intaqt
one quality

h2020-intaqt.eu

The INTAQT project is a **five-year European Horizon 2020 project** that aims to assess the relationships between **animal production systems** and their **product quality**, in the poultry, dairy and beef sectors.

Objectives

The INTAQT project intends to address the following challenges:

01

To develop comprehensive models quantifying the impact of husbandry systems on quality traits related to product safety, nutritional value and sensory features;

02

To co-construct with agri-food chain actors rapid and cost-effective innovative and practical analytical tools for the prediction of the intrinsic quality of livestock products and authentication of the associated husbandry systems;

03

To co-construct with agri-food chain actors, multi-criteria scoring tools of the intrinsic quality of products;

04

To promote farming practices adapted to the diversity of European livestock systems, which allow the production of safe, healthy and tasty animal products while ensuring a decent income for farmers and respecting animal welfare and the environment.

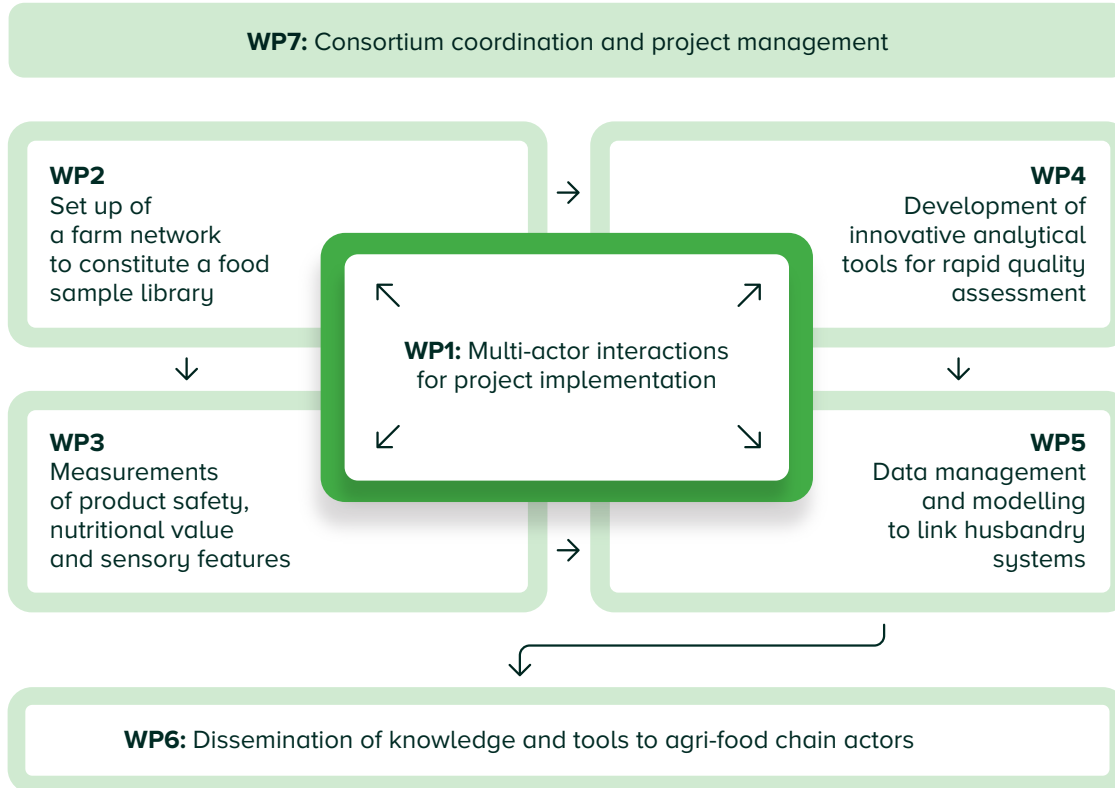

INTAQT aims to impact at the following topics:

- Food and Natural resources:
- Innovation capacity and new market opportunities
- Climate change, environment and societal issues

Work Packages

Multi-actor approach

One Quality Concept

The INTAQT project aims to combine the high quality of animal products to the sustainability of production, defining it as the "One Quality" of products.

Consortium

INRAE - Institut national de recherche pour l'agriculture, l'alimentation et l'environnement

BSA - Ecole Nationale Supérieure des Sciences Agronomiques de Bordeaux Aquitaine

UNIPD - Università Degli Studi di Padova

IDELE - Institut de l'Élevage

BfR - Bundesinstitut fuer Risikobewertung

UGENT - Universiteit Gent

UNIPG - Università Degli Studi di Perugia

IMR3GF - Fundacja International Meat Research 3G Foundation

UEX - Universidad de Extremadura

Amadori - Gesco Società Cooperativa Agricola

CFPR - Consorzio del Formaggio Parmigiano-Reggiano

EAAP - Federazione Europea di Zootecnica

SYSAF - Syndicat Des Selectionneurs Avicoles et Aquacoles Français

FiBL - Forschungsinstitut Fur Biologischen Landbau Stiftung

ACTA - Association de Coordination Technique Agricole

ITAVI - Institut Technique des Filières Avicole, Cunicole et Piscicole

CONSULAI - Consultoria Agroindustrial Lda

TEAGASC - Teagasc - Agriculture and Food Development Authority

QUB - The Queen's University of Belfast

UNIBO - Alma Mater Studiorum Università di Bologna

SODIAL - Société de Diffusion Internationale Agroalimentaire

LDC - L.D.C SA

LSAG - Linus Silvestri AG

IT - INRAE Transfert SAS

THIS PROJECT HAS RECEIVED FUNDING FROM THE EUROPEAN UNION'S HORIZON 2020 RESEARCH AND INNOVATION PROGRAMME UNDER GRANT AGREEMENT N° 101000250
